

THE CHAMBER

Take your seat on a political rollercoaster

A immersive theatre experience that places the audience at the centre of the political system

**Touring during Parliament Week
13th - 19th November 2017**

This project aims to engage audiences in discussions, debate and exploration of the workings (and not workings) of the political process in the United Kingdom. The Chamber will invite audiences to consider what politics and democracy mean to them. In 2017 a good turn out still left 30% of the population feeling unable to vote.

Why?

Face Up Theatre have created this project in order to help audiences unpick this question and along the way empower them to make the changes they want to see in their community.
